

What happened from the Stone Age to the Iron Age? Knowledge Organiser - Year 4

History

Pre-historic Britain began when the first humans arrived in the British Isles.

The first humans were hunter-gatherers. They survived by hunting animals and finding food to eat.

The pre-historic period is divided into three ages. They are known as the Stone Age, the Bronze Age and the Iron Age.

Prehistoric people couldn't read or write, but they were incredible builders. One of the most famous monuments they built is Stonehenge.

Design and Technology

The triangle is the strongest shape and is used in many structures around the world.

Reinforcing is when you strengthen a material, which may be weak.

A joining process is the way in which materials are joined together for a specific purpose. There are many different ways to join materials together including: nails, glue, screws, zips and thread.

A balanced diet is diet consisting of the seven key food groups which are: fats, carbohydrates, protein, dairy, water, fibre and fruits and vegetables.

R.E

People who follow Hinduism are called Hindus.

Hinduism is one of the oldest religions in the world. It began about 5000 years ago.

Hinduism is the world's third-largest religion after Christianity and Islam.

A deity is a powerful being or god.

Science

Humans and some other animals have skeletons for support, protection and movement.

All movement in the body is controlled by muscles.

Some muscles work without us thinking, like our heart beating, while other muscles are controlled by our thoughts and allow us to move around.

Art and Design

A sketch is a light drawing used to create a guide line for your final piece of artwork.

Artists use sketches to draw things for the very first time.

The medium is the material with which the artwork is made.

Geography

Stonehenge is located in Wiltshire, England.

The United Kingdom is split up into different cities and counties.

An atlas is a collection of maps. It can be used to locate countries, cities, famous landmarks and many other geographical features.

Music

Improvisation is making up your own tunes on the spot. When someone improvises, they make up their own tune that has never been heard before.

The pulse is the heartbeat of the music.

Rhythm is the long and short patterns over the pulse.
