

# Team Thomas - Spring 1

Dear Parents and Carers,

After a very long, hectic half term, we hope you have had a restful break over the Christmas holidays. Your children worked so hard and it was a pleasure to help them develop as learners. They learnt about electricity, made circuits and tested insulators and conductors. They wrote poems and leaflets about magnets and story openings based on 'The Iron Man'. Check out our class page on the school website to see some of the other things we did last term.

This half term, our Geography topic is called 'How can we save our rivers and oceans?' We will be locating the main oceans of the world, identifying parts of a river and understanding how our actions affect them.

In Art and Design Technology, we will be creating images and 3d models linked to the ocean.

In Science, we will be learning about the stages of The Water Cycle.

PE will take place on Monday this half term so it would help if your child had suitable footwear on these days. We will also be going skating on Friday afternoons.

Please encourage your child to read at home and support us by logging their reading, and writing any comments, on their GoRead account which will be checked regularly.

In class, your child will be given access to Spelling Shed and Times Tables Rock Stars but it would be great if they practised these skills at home too. As a team, we will be working hard to help your child achieve their full potential.

If you have any questions or concerns, please do not hesitate to contact us.

Mrs Newton

Miss Khaliq
